

Tell us about your

allergies

Make sure you tell your doctor or a member of your care team about any allergies or medicines that make you unwell.

In an emergency, it's very important the staff treating you know about any allergies you have.

We also need to make sure we avoid giving you any food or medication that make make you unwell.

We will keep this information on your patient record and it's very important that you tell us about any changes.

Speak to a member of staff to find out more about recording information on your patient record.
